But this idol can be made naturally using 'SHALUMATI' which easily degrades and do not harm to the environment. Also, it is cost effective and can be made on our own in houses. The Mentors from 'Fine Arts College of Bharati Vidyapeeth' were invited to teach and guide the students about the art of making Ganesh Idols. They taught us, how to get started with making a base first and, then designing as per our own imagination of how we portray in our minds, lord Ganesh. Everybody's idol were made so gracefully, that they were happy and enjoyed such a beautiful experience.

So, this event was a successful one as every participant after this event had beautiful idol made in their hands with their own imagination and believes. This helps save our environment of non-biodegradable wastes.

The air was filled with proud feeling of being an Indian amongst many soldiers and getting an opportunity to sit with all of them and watch the demonstration of what actually goes on behind the borders which is something that we don't realise in our day to day life . Demonstration started with a salute to all the vehicles that were used during the whole process.. Bombs of tricolours were blown into the air which was rather a nerve shaking experience. Along with the tricolor scattered in the air, our glory and pride for feeling proud was also experienced by each individual sitting over there.

The vast display scattered around included each and every kind of landform, upon which immediate combat actions were required to perform upon. The combats or the Zappers are truly the "first ones to step on battlefield, and the last one to leave it"Each type of terrain was arranged in front of us, upon which the army activities were conducted, it was like watching a live battle going on in front of us, within which each of us had goosebumps which every bomb or every attack. The soldiers paved their waves through every possible hurdle that may take place and showed us what it really is to work far from their motherland and for their motherland, it was indeed patriotic moments for all of us to feel the tension in the air, or the thoughts of dangerous possibilities that may occur behind the borders...

The live demonstration ended up with saluting our national flag which indeed brought chills down everyone's spine.The event was followed up with static displays which gave us an opportunity, to get a closer look into the vehicles used during the battles .We all were lucky enough to interact with our respected soldiers, who told us about how they overcome any

challenges and what makes them "AN INDIAN SOLDIER". The event was a great source of inspiration and ended successfully....

Special thanks to-our respected Principal Prof. Dr. S.R.Patil Sir, for giving us this opportunity which indeed taught us so much . Thank you to all our respected teachers, Prof. Dr. Smita Jadhav Ma'am who co-ordinated the event along with our respected Gfm's -Prof.Diksha Chopade Ma'am,Prof.Urmila Zope Ma'am, Prof.Y.D Kute Sir,Prof.Milind Patwardhan Sir for guiding and accompanying us all.

This experience in all senses inspired each and every student on this trip, not only as a student, but made us feel proud to be born in this country, to be born as an Indian.It made us realize about what it actually takes to be a soldier, living on the edge,living away from their people, living for their country with every breath.

Everyone went home with this feeling of PATRIOTISM. To our motherland, to our respected INDIAN ARMY, we all are proud to be INDIANS
