Teacher and student coordination is good.

It is very proud and happy moment to see that collage is taking this much efforts for students . All four years memories were in front of me after so longtime.

Enthusiasm of all.

Overall event was excellent.

I liked the performances the most. The way they were presented in a recorded form.

I loved the efforts of teachers for arranging such a nice program, also by keeping us entertained, really made me nostalgic.

The efforts taken by our junior to ensure that we don't run out of entertainment. Plus the professors took an extra effort for us to make the session lively.

The involvement of TE and SE students

If you were running the event , what would you have done differently?

13 responses

No I Didn't run any event

Nothing to add

I would have kept the event a little longer. Also I have presented a ppt of collage of alumina.

I honestly appreciate all the efforts in organizing this event and if I was running the event, I would have shared all the pictures of students and various events conducted in college days like Jishin, sports, yoga, NSS, class seminars, placements, traditional days etc with a some song related to friendship and college days playing in the background.

I might have involved the alumina and professors for a quick games/activities, only to level up the enjoyment and interaction as well.

Is there anything else you would like to share about the event?
