Report " Workshop on Electric Vehicles for Smart Cities "

Date: 12 July 2022

Student Development Section of Bharati Vidyapeeth's College Of Engineering For Women, Pune had organized a Workshop on **electric vehicles for smart city** by professors Vaishali Yavale and Krutuja Gadgil of AISSMS IOT college.

In the beginning we were briefed about the invention of the 1st electric vehicle invented by Yawale Ma'am, she told us that the 1st electric vehicle was invented in 1834 by Thomas Daveport. She gave the brief history about electric vehicles. There was non chargeable electric car in 1851, there was an invention of Nineteen Minutes per hour In 1859 lead acid storage batteries were invented. In 1874 battery power carriage was invented. In 1900 when 4200 automobiles were sold. In 1920s the electric vehicles disappeared and the ICEV became predominant. Disappearance and resurgence were seen. Electric vehicles were more expensive so they were disappeared. Then further Gadgil Ma'am introduced us with the types of electric vehicles. battery electric vehicles. hybrid electric vehicles. plug in hybrid electric vehicles are the types of electric vehicles. Architecture of electric vehicles. series configuration. Parallel configuration. series parallel configurations are seen in the electric vehicles. Degree of hybridization. Micro hybridization. Mild hybridization. Full hybrid plug in hybrid. Inductive and conductive charging vehicles. Even AC & DC charging are there in Electric vehicles

Battery characteristics road map of electric vehicles policy in India was introduced by Gadgil Ma'am. Thereafter she introduced us about their experiment which her students and she prepared. With the help of Scrap bike they made an Electric Vehicle in their college itself. They used lead acid battery, and the top speed of their invented electric bike was 35 km per hour. The electric motor which they used was BLDC 750 watt, the range of pickup was 9.5 km per charging, manufacturing of the invented electric vehicle was around 20000 assumptions of the mass was 170KG. Along with this Gadgil Ma'am also introduced us with some disadvantages about electric vehicles such as when electric vehicle passes by, there is no sound of the vehicle and hence rider does not understand or know someone's passing beside him/her. The battery if destroyed can charge us heavy. Time Span of the electric vehicles are more as we live in India, we are not patient enough to wait for a long time to get our vehicle batteries charged. These are the disadvantages stated, which brought the workshop to the end. Refreshments were served to all students and teachers after the workshop. 4 staff members and 71 students attended the workshop.

Report "Wachan Prerana Din "

Date: 15 Oct. 2022

On the occasion of former president Dr APJ Abdul Kalam's birth anniversary, October 15, the state government has urged all the schools, colleges and offices to observe 'Vachan Prerna Divas' (Inspire to Read Day). Claiming that technology and gadgets have almost taken over the habit of reading, the government has urged educational institutions to develop ideas and programmes to, once again, cultivate the habit of reading among youngsters. Wachan Prerana day was celebrated on 15 October 2022 On the occasion of former president Dr APJ Abdul Kalam's birth anniversary .It was celebrated enthusiastically by the Faculty and students of BVCOEW,Pune. 27 Teaching and Non-Teaching staff members and 118 students attended this event.The staff members expressed their views on the day.Principal Dr.S.R.Patil, Prof.S.A.Itkarkar and SDO Prof.K.R. Chaudhari were present for the event. Lecture was arranged for the students and digital reading session and book reding session was taken.

Report "Workshop on Green Electric Power Generation"

Date: 3 and 4 March 2023

On 3rd and 4th March '23, a workshop on Green Electric Power Generation was held in our college by Mr. Yogesh Mahaparale. He told us new information about the U.S. voluntary market, and that green power is defined as electricity produced from solar, wind, geothermal, biogas, eligible biomass, and low-impact small hydroelectric sources.

Renewable energy comes from sources that are constantly and naturally renewed (hence the name), such as wind power and solar energy. Renewable energy is also often called sustainable energy. Renewable energy sources are the opposite of fossil fuels, like coal and gas, which are a finite energy source. It was a very helpful and informative session. Surely this will benefit all the students in a great way! 130 students and 4 faculty attended this workshop.

Report " Seminar On Nirbhaya Kanya"

Date: 28 Feb 2023

The student seminar on Nirbhaya Kanya was organized by the student development committee on 28th February 2023 at BVCOEW. The event was officiated by the head of student development committee person K.R. Chaudhari. The chief guest, Dr Ujwala Bendale was welcomed by Prof K.R. Chaudhari. The topic discussed covered a variety of themes within the scope of women's rights and constitutional provisions. Dr Ujwala Bendale delivered an engaging sharing of her talk entitled "Nirbhaya Kanya". The first part of the seminar included the talk about the effects on the victim followed by the constitutional rights of the victim and the judicial activism and poish. She discussed in detail the Nirbhaya case and how the judicial system has evaluated the same. She has delivered the importance of making proper use of rights as misuse would lead to consequences. With her immense knowledge in the field of law she enlightened the students present the seminar with several rights possessed by the victim and how to make proper use of it. The seminar was carried for 2 hours followed by the question answer sessions wherein Dr Ujwala Bendale made sure she had kept no doubts regarding the same. She concluded the seminar by stating "Our lives begin to end the day we stop talking about things that matter". 280 students and 3 staff members attend this seminar.

Report "Seminar On Women Health"

Date: 17 Feb 2023

"Health is real Wealth!!" on the 17th February '23 a seminar was held at our college for the second year students. Our chief guest was none other than Dr. Vandana Nimbargi , prof and unit in charge Bharati Hospital , SE 2 ENTC CR Ananya Wagh introduced the guest of honor, that was followed by a speech given by Principal Prof. Dr. S.R. Patil .Dr. Nimbargi was welcomed with a bouquet of flowers . Being a gynecologist she spoke on various aspects of women's health and relating issues. She further elaborated polycystic ovarian syndrome which is in fact a very common disease among women and with the help of a PPT she explained the issues that are caused due PCOS/PCOD . The students were made aware about their health situation and the symptoms to recognize the start of PCOS/PCOD. She also suggested everyone various measures to help and prevent them from getting such diseases and if symptoms are visible then they must see a gynecologist immediately. The seminar came to an end with some questionnaire from the students and all in all it was a very informative and great session. 53 students and 4 staff members attended this event.Thank You!

Report "Seminar On Cyber Security"

Date: 15 Feb 2023

Cyber security: A more vigilant community. Bharti Vidyapeeth's college of engineering for women, organized a "Cyber security" seminar on February 15th, 2023 in the Seminar hall at around 9.00 am. The seminar's main objective was to draw today's technology driven youngsters to question their actions; conscious or unconscious and their adverse effects on themselves as an individual and as a part of the community. The workshop began with felicitation of the chief guest ;Adv Maharudra Gitte, an engineer by education(BE(IT), MTech (CSE)),an advocate by profession and a diploma student in cyber law by specification. The felicitation was done by Vice principal Dr. Professor AM Pawar and Professor KR Chaudhary by handing them over a book by Swami Vivekanand. The seminar began at around 9.25am with a quote from the most renowned cricketer, Sachin Tendulkar, "Accept criticism and drown them with noise of your success". With this inspirational quote,Mr Gitte began with the seminar. First and foremost accentuating the fact of not using more than 2 net banking apps as they pose a considerable amount of threat in leaking the personal information of an individual, via internet. To prove his accusation he gave a live demonstration for the same, he asked all the "PhonePe" users to pay him one rupee and wait until he deciphered the person he has the personal information of ,thereby proving that just the last 4 digits of a person's account number can lead to tracing his/her phone number and other critical information. Furthermore he acquitted the students with the various cyber crimes that are relevant these days. Which include: Cyber theft-identity theft Phishing and scams Cyber bullying Cyber stalking Social media frauds Extortion Pornography Sexting And many more. He shared a brief case study which made all the students realize that how emotionally they get attached and swayed away with the flow of using the social media. He also highlighted the "boys locker room" incident that went viral during the lockdown. The pros and cons of social media and dating apps was the focal point and was addressed with great concern. He put forth the do's and don'ts for the same from which the Don'ts were eye opening! He repetitively emphasized the need to be twice as careful while accepting an unknowns follow request on the social media apps for that leads to massive trouble in the time to come. He, very prodigiously, aided the students in acknowledging the sad truth of the cyber world and that we were not supposed to enslave ourselves under its influence. He quoted," Technology was made to make our lives easier and better, it never was made put us in trouble, and if at all we do get into one its our sole responsibility for we didn't use it to its full potential in the right way!" Soon after the Principal of BVCOEW, Prof. Dr. S.R. Patil expressed his heartfelt gratitude to Mr Gitte for giving his sparing his valuable time. He then elaborated onto Mr Gitte's theory of how technology can be a two-edged sword and how it can make or break a person's career and life. At around 10.45am the vote of thanks was delivered by one of the second year students and the program ended with reverberations of students applause and the students with more cautious minds and vigilant eyes, headed back to their respective classes.94 students and 3 staff members attended this event.

Date: 16 May. 2023

The 3rd Energy Transition Working Group (ETWG) meeting under G20 has been organized from 15th to 17th may 2023 in Mumbai . Considering this , The students seminar on topic LIFE STYLE OF ENVIRONMENT and CONSERVATION OF ENERGY SOURCES was conducted by Prof.D.P.Chopade on 16 th May 2023 at BVCOEW. The event was officiated by the head of student development committee Prof. K.R.Chaudhari.This program did initially led us to know about the importance of environment . It had encouraged us to adopt eco-friendly practices and to become pro-planet people. Also, the supply of energy on earth is not infinite . furthermore , it can take long time to regenerate energy. Hence .This seminar helped us to understand the importance of conservation of energy sources.55 students and 1 staff member attended this activity.

Report "K, B, P. Earn and Learn"

Padma Bhushan Dr. Karmveer Bhaurao Patil Earn & Learn Scheme. The founder of Rayat Shikshan Sanstha and eminent educationalist Padma Bhushan Dr. Karmveer Bhaurao Patil started this noble activity in the college of Rayat Shikshan Sanstha. 'Education through self-help' was the seminal principle of Karmveer Bhaurao's educational philosophy. Under earn and learn scheme, we have done work like lab settlement, office work, official report making, library work, software initialization etc. This scheme gives financial support to girls from poor families. Our teacher prof. Kalyani R. Chaudhari mam guided us in all this, During this period, we learnt a lot of new things such as multitasking, handling the paperwork, and how to initialize the different software applications, proper report presentations, etc. The most important thing that we learnt during this was time management and how can one learn and earn at the same time. This opportunity was a great experience that we all could have in our lives and also, we got the exposure to professionalism. We are grateful to our Principal and Professors for giving us such an amazing opportunity to prove ourselves worth and ensuring their trust on us. 25 students have take part in this activity.
