Capacity Building Programme

Feedback Form

1. Describe your overall experience of going through this activity in one sentence

This activity, we enjoyed a lot, such act-  
ivities helps to build <sup>personality</sup> physical development.

2. Which would be the most important thing that you learnt through this activity?

Through this activity, we ~~had~~ <sup>did</sup> self & other  
analysis.

3. One observation about yourself that you had not been aware of earlier.

I didn't know about my strengths  
& weakness earlier, but I came to know,  
later

4. One positive aspect of your personality that struck you today.

I came to know my observation is  
quite good.

5. How do you think you could improve yourself by using this activity's outcome?

By adopting new hobby, we could  
improve ourself.

6. Do you think that doing such an activity at regular intervals would help you in any way? If yes, in what way? If no, Why?

Obviously, such hobbies activities, tells  
us about our skills and builds our  
confidence.

### **Capacity Building Report (A Batch)**

#### **Sem – II, SE Computer**

*27<sup>th</sup> March 2023 & 29<sup>th</sup> March 2023*

Bharati Vidyapeeth's College of Engineering For Women organized Capacity Building Programme for SE Computer Engineering students, on 27/3/2023 & 29/3/2023. The Workshop was conducted by Ms. Kanchan Warke. The session began with an interesting activity, in which all of us were given a VAK Learning Styles self-assessment questionnaires. It helped us to identify learning and development that best meets our preferences. It helped us to identify what actually we are thinking.

**The session mainly focused on the three components:**

- **Personality Development**
- **Self- Awareness**
- **Goal Setting**

The workshop consisted of active discussions between the teacher and the students. All the students individually participated in evaluating their style of learning through several self-evaluation surveys, helping them to understand their learning styles the resource person also sportingly took part in group activities which involved case studies, solving questionnaire, and also shared their personal experiences which helped us to learn new ways of interacting with others.

We conducted different activities as follows:

- **Activity 1:** Here came to know about our predominant personality type, How we react to situations and people in our life, what are our beliefs and principles and commonly found personality types etc.
- **Activity 2:** We discussed our preferred learning styles which best suits us. This enables us to choose the type of learning style (Visual, Auditory, and Kinesthetic) that works best for us.

- **Activity 3:** We were provided a questionnaire with which we came to know about our inter-personal skills and our intrapersonal skills.
- **Activity 4:** Our values are the root that keeps us grounded and growing towards our potential keeping this in mind we discussed that what makes us feel great about ourselves, who inspires us the most and we also learn different life values.
- **Activity 5:** SWOT Analysis helped us to review challenges and benchmarks against them to configure strategies that will put us in a competitive advantage. It helped us to identify and effectively eliminate our threats.
- **Activity 6:** Goal Setting helped us to know actually in life what we have to do. What actually we have to achieve.

Capacity building is fundamentally about improving effectively, at the micro and macro levels personally. It helped us to focus on our ability to do new things and improve what we are currently doing. Most simply, it helps us improves our performance and enhances our ability to function and continue to stay relevant within a rapidly changing environment. It allows individuals to perform at a greater capacity work.

Capacity Building Programme

Feedback Form

1. Describe your overall experience of going through this activity in one sentence

Best process of developing and strengthening the skills.

2. Which would be the most important thing that you learnt through this activity?

Enhances individual performance, best to develop self skills.

3. One observation about yourself that you had not been aware of earlier.

I observe myself that I'm always rushing around. That's why I keep misplacing some important things.

4. One positive aspect of your personality that struck you today.

Positive people are self-aware. They exactly know what they want to do.

5. How do you think you could improve yourself by using this activity's outcome?

Definetly I can improve myself by developing personality, knowing strength, weakness.

6. Do you think that doing such an activity at regular intervals would help you in any way?  
If yes, in what way? If no, Why?

Yes, definetly, this helps to keep motivating and developing self confidence.

## PEER TO PEER TRAINING REPORT

A highly successful peer-to-peer session was organized by the Training department for T.E. students on 13 May 2023, spanning from 10 a.m. to 5 p.m. This event aimed to provide valuable insights and guidance to the students by leveraging the expertise and experiences of B.E. students. The session was divided into five distinct sessions, each focusing on a specific aspect of professional development.

The first session, titled "**Code the Code**," aimed to enhance the coding skills of the participants. B.E. students proficient in programming languages shared their knowledge, techniques, and best practices, enabling the T.E. students to refine their coding abilities.

The second session, "**Aptitude**," was designed to improve the problem-solving skills of the attendees. B.E. students with a strong aptitude background conducted interactive exercises and provided tips to enhance logical reasoning and critical thinking abilities.

The third and fourth sessions, "**HR Interview**" and "**Technical Interview**," respectively, addressed the students' concerns regarding job interviews. B.E. students who had successfully navigated these interviews shared their experiences and provided valuable insights into the interview process, including preparation strategies, commonly asked questions, and effective communication techniques.

The final session, "**Company wise Hiring Trends**," shed light on the latest hiring trends in various industries. B.E. students familiar with the job market presented information about different companies, their recruitment processes, and the skills and qualities they look for in candidates. This session helped the T.E. students align their skill sets and aspirations with industry expectations.

**NOTICE**

The placed students of BE (COMP) are going to conduct "Peer-to-Peer Training" for "Awareness Program regarding Placement" as a part of T&P activity as per the following schedule. All the students of SE(COMP) and TE(COMP) class are instructed to attend the same. Attendance for entire session is mandatory.

Date	Time	Topic	Venue
13/05/2023	09:00-10:00	Coding	SE(COMP): 207  TE(COMP): 007
	10:00-11:00	Aptitude, GD, PI	
	11:15-12:00	Technical Interview	
	12:00-01:00	HR Interview	
	02:00-03:00	Company Specific	
	03:00-04:00		
	04:00-05:00

**Session 1: Technical Interview**

On 13<sup>th</sup> May, Peer to Peer Training was conducted by the BE-COMP students. In first session, the topic covered was Technical Interview the students who conducted this session were Rutuja Zagade, Sakshi Phatak, Piyusha Patil, and Sakshi Priya. They majorly explained about the communication skills and technical skills.

They also shared their personal experiences they had during their technical interviews in college. They share with us their experiences, interview questions, and some etiquette that should be followed during interviews.

They explained us some of important things about communication and technical skills and provide some of resources so that we can practise from that. They suggest us some books, YouTube channels, links which will be helpful for us.

Some knowledge about subjects which are asked more frequently in interviews was explained and provided the links for mock interview preparations. This first session was very helpful for all of TE-COMP students, from which we learnt new things, which we will implement and work hard to get placed.

**Session 2: H.R. Interview**

On 13<sup>th</sup> May, Peer to Peer Training was conducted by the BE-COMP students. In second session, the topic covered was H.R. Interview the students who conducted this session were Purvajya Gawarshettiwar, Vaishnavi Bankar, Shraddha Idhate, Rucha Sathe, and Ashita Hirmukhe. They first started with depicting a scenario where two interviewers were conducting an interview session. Two different candidates came in for interview which clearly depicted the difference between the right and wrong way to appear for interviews.

Rucha shared about what all skills are required for a good HR interview. The first and most important one is the communication skills. Information regarding various resources which are important for HR was given. Prepinsta, Indiabix, Faceprep, Interviewbit are helpful resources. It was a very interactive and fruitful session.

The HR interview session for engineering students emphasized the importance of soft skills, preparation, showcasing accomplishments, professionalism, and asking thoughtful questions. By focusing on these aspects, students can increase their chances of securing a job in their desired engineering field.

Session 1: Coding Round

On 13<sup>th</sup> May, Peer to Peer Training was conducted by the BE-COMP students. In third session, the topic covered was Coding Round the students who conducted this session were Shreya Sahu, Shruti Nahar, Kriti Sharma, Ziya Sayed, Vaishnavi Mahajan. They first started with a roadmap clearly described what should be your approach to prepare for clearing the coding round. They shared their experience of what are the types of questions that are asked during coding round.

Information regarding available resources which are available and helpful was provided. Codehelp by Babar, Code with Harry, Apna College, Anuj Bhaiyya are various YouTube channels which are excellent for coding preparation. Various complications which are faced by beginners during the preparations were also discussed.

Different categories of packages like <5 lakhs, 5-15lakhs, >15 lakhs were mentioned and the respective approach was given. It was an amazing, interactive, and very informative session.

**Session 4: Aptitude and GD**

On 13<sup>th</sup> May, Peer to Peer Training was conducted by the BE-COMP students. In fourth session, the topic covered was Aptitude and GD the students who conducted this session were Sukhpreet Kaur, Nushia Fatma, Unnati Jadhav, Ananya Verma, Sakshi Saner, Nemanwar Satvika. They introduced themselves to us with their placement package. After that they start explaining about group discussion and aptitude round why they important and which type of questions they will ask and how to crack the question, different approaches these things they explained to us.

They gave us the important websites we can refer to like Indiabix and Javatpoint. They did tell the importance of how aptitude is also important as it the first step of the placement process. They gave us the tips n tricks for the Aptitude test.

After that they ask some sample aptitude question and give the solution for that question and explain how to solve that. At last, they shared some important resources from where to prepare and their experience. This was very helpful and an interactive session.

Session 5: Company Specific Preparation

On 13<sup>th</sup> May, Peer to Peer Training was conducted by the BE-COMP students. In fifth session, the topic covered was Company Specific Preparation the students who conducted this session were Angaluri Veena, Samiksha Bode, Archana Aher, Sharwari Deshmukh, Apurva Bari, Shital Patil, Onal Chaudhari, Prachi Wadhvane, Aishwarya Kottapalli, Divya Maske, Shreya Sonawane, Rupali Bharama and Komal Dudhane. They introduced themselves to us with their placement package and companies. Everybody had made a proper presentation on to the mark for us to understand what is the placement procedure for each company specifically. All of them explained a step-by-step exam and what we need to prepare for the exam. They also made it very clear on what we should not waste our time on.

A peer explained us the approach we need to have towards all the questions while also explained how the logic of code is expected by the interviewers. These peer-to-peer sessions gave us a clarity on how to prepare, why to prepare and what to prepare. These were helpful and gave us an eye opener. This was very helpful and an interactive session for everybody. They did tell us how consistently we should be working and a huge amount for practice is required for grabbing good offers.

**Session 1: Coding Round**

On 13th May, Peer to Peer Training was conducted by the BE-COMP students. In the first session, the topic covered the aspects of Coding Round. The students who conducted this session were Shruti Rajendra Nakar, Kriti Sharma, Ziya Fatima Sayad, Shreya Sahu, and Vaishnavi Sandeep Mahajan. They mainly explained the importance of coding round and how to develop these skills.

They also shared their personal experiences that they had during their placement Interview. It was a very knowledgeable and resourceful session. They not only pointed out the topics that we should bring in focus while preparing for the coding round but also taught us how to tackle some problems during this round.

They explained us some of the important things that we should keep in mind while preparing for this round, and provided us with some resources which we can use while preparing for it. They suggest us some books, YouTube channels, and links which will be helpful for us.

Some frequently asked topics in interviews were shared and links for it were provided. This first session was very helpful for all the SE-COMP students. We will try to make most out of this valuable session conducted for us to get placed.

**Session 2: Aptitude and GD**

On 13<sup>th</sup> May, Peer to Peer Training was conducted by the BE-COMP students. In Second session, the topic covered was Aptitude and GD the students who conducted this session were Sukhpreet Kaur Rayat, Nashia Fatma, Ankita Chandrakant Tilekar, Unnati Jitendra Jadhav, Ananya Sunil Verma, Nemanwar Satvika Manoj, Sakshi Yogesh Saner. They majorly explained about the aptitude rounds and communication skills for GD.

They also shared their personal experiences they had during their aptitude round and GD in college. They also demonstrated a mock GD which helped us understand what was required and expected from us in a much better way.

They explained us some of important things about communication and aptitude and provided some of resources so that we can practice from that. They suggest us some books, YouTube channels, links which will be helpful for us in placement preparing.

Some knowledge about subjects and GD topics which are asked more frequently in interviews was explained and provided the links for mock interview preparations. This Second session was very helpful for all of SE-COMP students, we now felt much more confident as we knew how to, and what to prepare for these rounds.

**Session 3: Technical Interview**

On 13<sup>th</sup> May, Peer to Peer Training Session was conducted by the BE-COMP students. In its third session, the topic covered for us was about the Technical Interview. The students who conducted this session were Rutuja Zagade, Sakshi Phatak, Piyusha Patil, and Sakshi Priya. They explained us about which skills to focus on for acquiring better knowledge in technical domain.

They shared their personal experiences which they had during their technical interviews in their placement rounds. They gave us the overview about how the questions are asked in interview.

They provided us with various resources names from where we could get better help for preparation. They suggested us some books, YouTube channels, links for the same. We SE Computer students really find this session very much beneficial for our upcoming years and will surely try to implement all those beneficial points told by our peers to us.

**Session 4: HR Interview**

On 13<sup>th</sup> May, Peer to Peer Training was conducted by the BE-COMP students. In this session, the topic covered was HR Interview the students who conducted this session were Gawarshettiwar Vilas Purvajyar, Vaishnavi Pravin Bankar, Shraddha Bhagwan Idhate, Sathe Rucha Annasaheb, Ashita A Hirmukhe. They majorly explained about how the candidate should prepare herself for this interview.

They shared their personal experiences they had during their HR interviews in college and also helped us with giving some insight stories. They set up a mock session which made it visually impactful. Some basic interview questions, and some etiquette that should be followed during interviews were well explained.

They mentioned us some of important things about communication skills and confidence correlation. They asked us to keep a smile during the interview session which always helps one to deal with the pressure around and boosts the quality of interview.

Some knowledge about aspects which are asked more frequently in interviews was explained. This session was very helpful for all of SE-COMP students, from which we learnt new things, which we will implement and work hard to get placed.

Really grateful that our seniors took out time from their busy schedules and prepared such a beautiful session for us to help ease our journey. But I really believe that our college could have timed it better as it was too close to our unit tests and final submissions.

It was very knowledgeable session

It was really helpful and informative

The session was very much effective for us as we got an idea what to do from now to get the highest package and what is mandatory to do for the process of hiring and very well explained how to pass the aptitude and over all process got to know more about the hiring process and what to focus on from now and overall session was amazing interesting and satisfied.

Great

Amazing experience

-

Great

Very good

It was the best session I had till now. Loved the way they all spoke. Got a lot of useful information that I will surely apply

Good

Helpful

Really learnt a lot from our seniors! I am extremely grateful for the seniors that they were able to remove time from their busy schedule and prepare such knowledgeable and helpful contents to guide us through our engineering years!! But I really feel that our college could have scheduled it on a better date as most of the students were not able to take 100% back due to the pressure of the upcoming unit test and final submissions.

Got to know about a lot of training and placement related information, various resources and contents for notes and skills development.

It was very good as all the process was explained thoroughly and was shown with a demo interview so the idea of how to attend the questions of interviewer got more clear

I really enjoyed the session. It was very and helpful from placement point view so that we can start preparation from now to get good package

**'Peer-to-Peer Training' for "Awareness Programme regarding Placement" Report**

The peer-to-peer training for the students was scheduled on 13th May, 2023 in classroom 205. All placed BE IT students formed 5 groups for giving guidance to the TE students. BE students prepared presentations covering these topics in detail.

**Coding Round Session:**

To ensure that students understand the importance of coding rounds and are well-prepared for them this 'Code to Code' session was conducted.

An introductory session was conducted to explain the purpose and structure of the program. This session covered the reasons why employers value aptitude tests and how they help assess candidates' suitability for specific roles.

TE students were made aware about the aspects of coding round which assess the candidate's adaptability, creativity, and capacity to think outside the box, qualities highly valued in the technology industry. Students were provided insights into the types of coding problems typically encountered, tips for effective preparation, and strategies to improve problem-solving skills. The access to online coding platforms and resources were discussed as a further supplement in their preparation. These platforms offer coding challenges, practice problems, and tutorials that help students improve their coding skills. BE students recommended specific platforms and resources that have proven helpful during their own preparation.

Peer-to-peer training significantly contributed to enhancing students' understanding of coding rounds and equipping them with the necessary knowledge and skills to excel in these assessments.

### **Aptitude Session:**

An introductory session was conducted to explain the purpose and structure of the program. This session covered the reasons why employers value aptitude tests and how they help assess candidates' suitability for specific roles.

Students were made aware of the essential skills and competencies evaluated through aptitude tests. This may include logical reasoning, numerical ability, verbal reasoning, critical thinking, problem-solving, and data interpretation. Real-life examples and case studies were also used to illustrate the relevance of these skills in professional settings. TE students were introduced with effective strategies and techniques to improve their performance in aptitude tests. This involved discussing time management, question prioritization, eliminating wrong answer choices, and utilizing shortcut methods where applicable. TE students collaborated and shared resources, discussed challenging topics, and issues they face while solving aptitude questions.

### **HR Interview:**

To ensure that students understand the importance of HR rounds and are well-prepared for them this 'HR Interview' session was conducted.

An introductory session was conducted to explain the purpose and structure of the program. This session covered the reasons why employers value personality- strengths, weaknesses and how they help assess candidates' suitability for specific roles.

TE students were made aware about the aspects of behavior prowess which assess the candidate's adaptability, creativity, and how the candidate can fit into the company's work culture. Students were provided insights into the types of HR questions typically encountered, tips for effective preparation, and strategies to improve communication skills. The access to online preparation platforms and resources were discussed as a further supplement in their preparation. These platforms offer various types of HR questions, personality tests, etc. BE students recommended specific platforms and resources that have proven helpful during their own preparation.

Some common Questions mentioned were:

1. Tell me about yourself?
2. Why do you want to work for our company?
3. What are your greatest strengths and weaknesses?
4. How would you rate yourself on a scale from 1 to 10?
5. What is your biggest achievement so far?
6. Where do you see yourself in 5 years?
7. Why should we hire you?

### **Technical Interview:**

This session provided practical tips and strategies for tackling technical interview questions, coding challenges, and other aspects of the technical round. The guidance on how to approach problem-solving, effective coding practices, and common pitfalls to avoid were given.

BE students presented PPTs on preparation strategies for the Technical Round. This includes topics like data structures, algorithms, object-oriented programming, databases, operating systems, and networking. Online resources, textbooks, and peer-recommended study materials helped TE students for comprehensive understanding of preparation. Students were made aware about how communication skills, and technical proficiency can significantly enhance their performance during the actual interview. BE students also provided some valuable advice to stay informed about the latest trends, tools, and technologies in their field of interest. Being up to date with industry-specific knowledge demonstrates a proactive attitude and eagerness to learn, which can impress interviewers during the technical round.

In conclusion, this session offered a valuable opportunity for TE students to enhance their preparation for the technical round of placement interviews. By leveraging the knowledge, experiences, and support of their peers, students gained the confidence, skills, and insights required to excel in technical interviews.

### **Company Wise Hiring Trends:**

In this session students were provided with the company-specific preparation strategies for placement. BE students shared their experiences, insights, and strategies with their fellow students.

BE students presented different company-specific preparation strategies which involved researching the company, understanding its culture, values, and industry, and aligning one's skills and experiences with the company's requirements. These strategies enabled students to showcase their suitability and stand out among other applicants. The one placed student from each company of BE IT had given a presentation on the recruitment process of each company. The hiring trends in companies like Amdocs, Capgemini, Cimpres, VOIS, NilsenIQ and Persistent were explained by BE IT students. Students were aware of the must to points to prepare for the specific company they are in: researching the company thoroughly, studying the company's website, annual reports, news articles, and industry trends. BE students shared their interview experiences, including the types of questions asked, interview formats, and specific competencies assessed. They guided students on how to create and maintain a professional online presence and shared their networking strategies and provided tips for building a strong personal brand. The last session ended with the Q&A session and verbal feedback.

By conducting this session students gained practical insights from their peers who have successfully navigated the placement process recently. This enabled students to tailor their preparation strategies according to specific companies.

### **'Peer-to-Peer Training' for "Awareness Programme regarding Placement" Report**

All the placed students of BE IT formed the 5 groups to cover important topics for the preparation of Campus Placement, Aptitude, Technical, HR Interview, Code to Code Round, Company wise hiring trends. Each group prepared PowerPoint Presentations. The peer-to-peer training for SE students was scheduled on 13th May, 2023 in classroom 206.

An aptitude test is an important part of the screening process for potential employers. They focused on Logical reasoning, Verbal Ability, Numerical Ability, Abstract Reasoning, Spatial reasoning etc. They also covered guidance for group discussions, as this round is conducted in the selection process for trainees and executive positions to mainly check team playing skills for working in organizations with people.

During the Technical sessions the important topics of Data Structure and Algorithms, Object Oriented Programming, Database Management Systems, Computer Network, Operating System were discussed. Questions asked in the technical round were discussed. What are the important points to consider while giving technical interviews were fully explained by BE IT students. How to solve the particular questions into the given time period.

Further, they elaborated how every company conducts an HR interview round to judge your personality, your strengths, your weaknesses, your capability to handle the role, to check your background, and to understand if you're the right fit for this job. The guidance for general questions like Tell me about yourself, why are you interested in this position? Were given.

The Code To Code session included demonstration of online programming platforms like Hackerrank , Code Chef, Geeks for Geeks, Prepinsta , LeetCode etc. for logic development and programming practice. These sessions were indeed useful for SE students for the preparation of Company placement.

In the Company specific session, the one placed student from each company of BE IT has given a presentation on the recruitment process of each particular company. The hiring trends in companies like Amdocs, Capgemini, Cimpres, VOIS, NilsenIQ and Persistent were explained by BE IT students. Also the general questions were asked by SE students and they were answered by BE IT students.

## **Skill Enhancement Club**

Different Coding Clubs like Coding, Aptitude and HR are conducted by students, observed and corrective actions are suggested by the Training Coordinator. One of the students gives a task daily and other students solve it by end of the day which enhance their thinking power and also receive constructive solutions from other students. These clubs are helpful to broaden the knowledge of students in terms of Placement.
